and cure all allments of this character.

Two years ago I took a severe Cold, which, being neglected, was followed by a terrible Cough. I lost fiesh rapidly, had night sweats, and was soon confined to my bed. A physician was called, but the medicine he prescribed afforded enly temporary relief. A friend advised the use of Ayer's Cherry Pectoral. I began taking this medicine, and before finishing the first bottle was able to sit up; four bottles effected a perfect cure.

In several cases of Bronchitis, caused by exposure to damp and cold weather. I have used Ayer's Chorry Pectoral. It is an anodyne expectorant of great value and usefulness to patients of all ages. Its certainty of action, and its asisty as a household remedy, are forcible arguments in its favor. No other cough preparation does its work so exickly and satisfactorily. — C. E. Heyt, E.
